MOBILE APP DEVELOPMENT STACK

Android App Development

The popularity in the market and worldwide reach makes android apps an excellent choice for your business solutions. Cylsys android apps are known for their stunning User Interface (UI/UX), swift loading time, and consistent performance.

Cross Platform Mobile Apps

Mobile apps that work on multiple platforms give you a wider reach. Leveraging the best technologies in cross-platform development like Ionic, Xamarin, etc., our cross-platform development process balances clarity, features, and responsive interfaces.

iPhone App Development

iOS applications are known for setting new benchmarks in the mobile app development industry. A fresh idea with a simple interface is what iOS apps are all about, and our resourceful iPhone app development team is the right choice for you.

React Native Apps

React Native apps are unique, have a simple user interface, and provide cost-effective solutions for your business needs. With vast experience in building first-class native apps, our React Native app development team will help you change the face of your business.

Flutter App Development

Flutter apps are multi-platform apps enriched with delightful UI, high performance, and responsive design. Our Flutter app development has the best team that will help you save time, cost, and resources while providing you with aesthetic native apps.

Progressive Web Apps

Progressive Web Applications (PWAs) create a break from traditional web app development to expand on a responsive feel. Our PWAs make it easy for you to link and install them and gives an engaging app-like feel to your business solutions.

DIGITAL TRANSACTION SYSTEM

Digital Transaction System is a utility that handles all the processing of transactions occurring in mutual fund companies .DTS works on daily basis and handles all the transaction related data. DTS ensures that every transaction is taken care and logged into the system.

It involves Email and Fax transaction, Bank statement download and Credit Confirmation, Master/Mapping setups. It's a one –stop solution for entire transaction processing.

POLLING APPLICATION

As mandated by SEBI all AMCs have to do the valuation of bonds on a daily basis. The process followed is the AMC receives a mail from either CRISIL or ICRA on a daily basis at 4.30 p.m. and this mail needs to be replied by the Fund Managers of AMCs after entering the

necessary data in the attached Excel sheet on the same day All this data needs to be stored and preserved for approximately 8 years. This entire process was being done manually which was very cumbersome and time consuming. So to enhance the process and optimize the resources it was decided to automate this entire process and store the required data in a database by developing an application for the same.

ADVANCE SUITE - NBFC

Neogrowth is a leading NBFC which is into the Business of Personal Finance. Instant loans, Business loans and Online Seller Finance. The entire process from customer loan application, customer eligibility check, Customer KYC documents scanning and

storing, credit underwriting, loan approval & disbursal are done through their in house CRM. All the details are stored in this application which is called Advance Suite. Cylsys Software took up the task of incorporating updates and modules for this application. Cylsys had two of its resources deployed at the NeoGrowth office to execute this task.

PFIZER –Data Migration

Pfizer is one of the worlds premier Biopharmaceutical companies

Cylsys Software was assigned a project for Data Migration by Pfizer . This included extracting data from multiple sources, mapping these tables in Excel and finally migrating it with the SQL Server. This project needed zero-error delivery which our resources executed with ease and within the given deadline.

VDGS AIRPORT SOLUTION

We have designed an application integration software for Safegate, Sweden that enables applications running on different servers to communicate with each other. Let's take an example of the Mumbai International /London Airport.

They run a main frame server that supports the administrative operations of the airport. They also run a parallel Gate Operating System that is responsible for guiding an airplane to its parking bay. It is very useful for these two systems to communicate to each other, but they can't because they operate on completely different architecture. What we've done is to create a message oriented middleware that can track, translate and control the flow of information between these two systems.

ERP FOR STEEL BALL MANUFACTURES

The Brief to Cylsys was to build an ERP which would streamline the entire Manufacturing process. The idea was to incorporate cutting edge Technology for their entire process.

TOLIA
Tolia Group of Companies
Steel Balls, Taper & Cylindrical Rollers

The Company manufactures steel balls and rollers in different sizes and for this, Cylsys designed and developed an ERP which streamlined the whole process. Our ERP gives an accuracy of size, counts of units, quantity of materials and the duration of preparation. Our ERP has the masters as per requirements and gives reports for their quality analysis. Our ERP has resolved their whole manual work wherein they had to manually jot down the process and use excess manpower too.

WEBSITE CONVERSION PROJECT

Cactus Communications is a Leading name in the field of Research. They provide a host of services that support Research scholars, Universities and Institutes, Journals, Publications ,Societies, Companies, Policymakers and other entities engaged in research.

CACTUS.

Cylsys Software played a major role in their Website conversion project. Cactus had many client websites which were not updated and were using Old framework like PHP. These needed to be converted inn HTML using NX framework and Java Script.

CORPORATE SPEND MANAGEMENT PLATFORM

EnKash is a Start up and has created a path breaking platform which analyses Corporate spend, payments and other Financial transactions of companies. Data for such

EnKash

analysis is taken from service providers like Tally, SAP etc through which companies register their Financial transactions. Cylsys Software creates various modules for this platform of EnKash.

myfundbucket
Financial Mall at Your Fingertips

LEARNING APP

FlexiJoy is a platform that enables companies to fulfill work requirement in contract mode rather than employment and enable candidates to learn skills that are required for the job thereby making them micro entrepreneurs by taking up multiple work opportunities instantly.

FlexiJoy is an initiative by Jetking which has experience of 30+ years in Training and Placements and has generated job opportunity for more than 7 lakh students in 4 countries. FlexiJoy gives people flexibility on how long, where and when they work and provides an opportunity to develop basic employability skills and practical skills for flexible work. It provides opportunities for students to earn while they learn and gain practical experience on the job they lov.

Jetking®

MEDICAL JOURNAL READER

The Indian Journal of Ophthalmology (IJO), the official journal of the All India Ophthalmological Society (AIOS) and Medknow released the iPad app, providing full mobile accessibility to the latest research in ophthalmology. IJO is published by leading open access publisher. We have created a content reader for Wolters Kluwer, USA. It's a next generation iPAD/Android based reader for medical and

Wolters Kluwer

scientific journals. About 350 journals are already live for the reader. We have put in a payment gateway, given digital rights management capabilities and added a host of other features that make it very user friendly. Its comprehensive advertisement platform has micro-targeting capabilities, carries context-aware, rich multimedia adverts has sophisticated usage analytics to study user behaviour and frequently read articles and supports online interactions between peers, users and advertisers.

INSTANT MONEY TRANSFER APP

Cylsys Software created this Instant Money transfer application which helps the user transfer funds from Canada to anyone in Nigera.

AMEFRI CASH

Transfer of funds is done in a matter of minutes through this App. All commercial Banks of Nigeria are supported through this App. This application was created for Android and iOS platforms.

ECOM – AVAILABILITY PROJECT

Wingreen Farms major share of Sales and distribution is done Online through the various Ecommerce websites like Big Basket, Big Basket Daily Amazon, Flipkart, Milk Basket, Super daily and Food delivery Apps like Swiggy. Wingreens Farms wanted all these portals monitored on a daily basis for the availability of their products , offers being displayed and what the competition was offering.

An 8 member Team at Unicorn Ops having experience in Data mining, Data monitoring and creating Reports, helps the Wingreen team understand the position of their inventory in each portal, by monitoring availability of product range and offers for each day.

MFB – END TO END BUSINESS PROCESS

MyFundBucket is an Online aggregation platform for credit cards ,saving accounts, secured and unsecured loans. created by Cylsys

The entire Business process from lead generation, Marketing, Business Analytics and Call centre Operations with below facilities was set up By Cylsys :

- Call Recordings
- Dialers
- PRI Line
BRAND AWARENESS- KANDAHAR KNIGHTS (APL)

Kandahar Knights is a cricket franchisee which participates in inaugural Afghanistan premier league T-20 Tournament. Though the company has just stepped in the market, nevertheless we assisted them in creating awareness about their company/brand and their products from "toe the line". We have managed APL's entire digital marketing process

includes Social Media campaigning, Email Automations and PR activities. Through our rigorous hard work or efforts we have made heir name as a fame.

KOTAK 811- PRODUCT ACTIVATION

Kotak Mahindra Bank is one of the leading private Banks in India and offers Banking products and financial services for Corporate and Retail customers in the areas of personal finance, Investment Banking, Life Insurance and Wealth

The Client Kotak Mahindra Bank wanted to promote and get its newly launched digital savings account "Kotak 811" activated by the maximum number of customers in Pan India. The Unicorn Ops Team started slow, but gradually did such a fantastic job that they scaled up in no time to 2000 plus accounts month on month. The Team were self -motivated to achieve the daily targets. So the entire success of this campaign goes to the wonderful team of agents and the Supervisors.
